Volume 217 (1989)

<i>Editorial Announcement</i>	1
<i>Research Papers</i>	
Existence and expression of photoreactivation repair genes in various yeast species (MTR 06308) A. Yasui, A.P.M. Eker and M. Koken (Japan, The Netherlands)	3
Radiosensitivity of lymphocytes from patients with Alzheimer's disease (MTR 06309) T.A.D. Smith and R.F. Itzhaki (Great Britain)	11
Photoreactivation rescue and dark repair demonstrated in UV-irradiated embryos of the self-fertilizing fish <i>Rivulus ocellatus marmoratus</i> (Teleostei; Aplocheilidae) (MTR 06310) E.-H. Park and A.-K. Yi (Korea)	19
Nuclear DNA synthesis is blocked by UV irradiation in <i>Dictyostelium discoideum</i> (MTR 06311) D.L. Hurley, A.M. Skantarz and R.A. Deering (U.S.A.)	25
Evidence that ultraviolet light-induced DNA replication death of <i>recA</i> bacteria is prevented by protein synthesis in repair-proficient bacteria (MTR 06312) C.O. Doudney and C.N. Rinaldi (U.S.A.)	33
Transient appearance of photolyase-induced break-sensitive sites in the DNA of ultraviolet light-irradiated Syrian hamster fetal cells (MTR 06313) M. Pirscl, J.A. DiPaolo and J. Doniger (U.S.A.)	39
Protective role of potentially lethal damage repair in the neoplastic transformation of Balb/c 3T3 cells treated with <i>N</i> -methyl- <i>N'</i> -nitro- <i>N</i> -nitrosoguanidine (MTR 06314) S. Nakano, T. Koga, I. Ichinose, M. Nakayama, R. Iwakiri, Y. Niho and R. Takaki (Japan)	45
Relationship between topoisomerase II and radiosensitivity in mouse L5178Y lymphoma strains (MTR 06315) H.H. Evans, M. Ricanati, M.-f. Horng and J. Mencl (U.S.A.)	53
Enhancement of UV-induced mutagenesis and sister-chromatid exchanges by nickel ions in V79 cells: evidence for inhibition of DNA repair (MTR 06316) A. Hartwig and D. Beyersmann (F.R.G.)	65
Sensitivity to bleomycin and hydrogen peroxide of DNA repair-defective mutants in <i>Neurospora crassa</i> (MTR 06317) E. Käfer and D. Luk (Canada)	75
The cloned human DNA excision repair gene <i>ERCC-1</i> fails to correct xeroderma pigmentosum complementation groups A through I (MTR 06318) M. Van Duin, G. Vredeveldt, L.V. Mayne, H. Odijk, W. Vermeulen, B. Klein, G. Weeda, J.H.J. Hoeijmakers, D. Bootsma and A. Westerveld (The Netherlands, U.K.)	83
Defective repair of DNA single- and double-strand breaks in the bleomycin- and X-ray-sensitive Chinese hamster ovary cell mutant, BLM-2 (MTR 06319) C.N. Robson, A.L. Harris and I.D. Hickson (Great Britain)	93
Excision repair characteristics of <i>denV</i> -transformed xeroderma pigmentosum cells (MTR 06320) R.D. Ley, L.A. Applegate, J.K. De Riel and E.E. Henderson (U.S.A.)	101
Expression of DNA damage-inducible genes of <i>Escherichia coli</i> upon treatment with methylating, ethylating and propylating agents (MTR 06321) M.R. Volkert, F.H. Gately and L.I. Hajec (U.S.A.)	109
Conditional lethality of the <i>recA441</i> and <i>recA730</i> mutants of <i>Escherichia coli</i> deficient in DNA polymerase I (MTR 06322) I. Fijalkowska, P. Jonczyk and Z. Ciesla (Poland)	117
KIN, a mammalian nuclear protein immunologically related to <i>E. coli</i> RecA protein (MTR 06323) J.F. Angulo, P.L. Moreau, R. Maunoury, J. Laporte, A.M. Hill, R. Bertolotti and R. Devoret (France)	123
Microinjection of T4 endonuclease V produced by a synthetic <i>denV</i> gene stimulates unscheduled DNA synthesis in both xeroderma pigmentosum and normal cells (MTR 06324) M. Yamaizumi, T. Inaoka, T. Uchida and E. Ohtsuka (Japan)	135
DNA methylation in xeroderma pigmentosum (MTR 06326) H. Sano, N. Shiomi, K. Imanishi, O. Maie and T. Shiomi (Japan)	141

Homologous recombination is not enhanced in UV-irradiated normal and repair-deficient human fibroblasts (MTR 06327)	
J.L.M. Van der Lubbe, H.J.M. Rosdorff and A.J. Van der Eb (The Netherlands)	153
A role of DNA topoisomerases in the active dissociation of DNA minor groove-ligand complexes	
A flow cytometric study of inhibitor effects (MTR 06328)	
P.J. Smith, P.G. Debenham and J.V. Watson (Great Britain)	163
<i>Conference Report</i>	
DNA Repair Mechanisms and their Biological Implications in Mammalian Cells (MTR 06333)	
Report of a NATO Advanced Research Workshop held in Fontevraud, France, 2-7 October 1988, Report prepared by Philip C. Hanawalt	173
<i>Research Papers</i>	
Repair analysis of mitomycin C-induced DNA crosslinking in ribosomal RNA genes in lymphoblastoid cells from Fanconi's anemia patients (MTR 06325)	
A. Matsumoto, J.-M.H. Vos and P.C. Hanawalt (U.S.A.)	185
UV mutagenesis, cytotoxicity and split-dose recovery in a human-CHO cell hybrid having intermediate (6-4) photoproduct repair (MTR 06329)	
R.S. Nairn, D.L. Mitchell, G.M. Adair, L.H. Thompson, M.J. Siciliano and R.M. Humphrey (U.S.A.)	193
Genotoxicity of quinoxaline 1,4-dioxide derivatives in <i>Escherichia coli</i> and <i>Salmonella typhimurium</i> (MTR 06330)	
T. Nunoshiba and H. Nishioka (Japan)	203
Different action of MMS and EMS in UV-sensitive strains of <i>Aspergillus nidulans</i> (MTR 06331)	
N. Babudri and M.G. Politi (Italy)	211
DNA-protein crosslinking in normal and solar UV-sensitive ICR 2A frog cell lines exposed to solar UV-radiation (MTR 06332)	
B.S. Rosenstein, L.-W. Lai, J.M. Ducore and R.B. Rosenstein (U.S.A.)	219
<i>Contents, Vol. 217 (1989)</i>	227
